Structural, Exploded Parts (BPST)	7	Troubleshooting	18
Structural Bill of Materials (BEHLT & BPST)	8	Safety Label Identification	19
Motor & Transformer Connections	9	Warranty	20

IMPORTANT NOTES, WARNINGS AND SAFETY INSTRUCTIONS

Ensure that all employees understand and follow the following.

- ☞ **Failure to read and understand this owner's manual before using or servicing the scissor lift constitutes a misuse of the product.** All persons who will install, use, or care for this product must be familiar with this information.
- Non-portable units must be securely anchored to a level concrete surface.
- The scissor lift is intended for use only on level, concrete surfaces.
- The lift's load must be centered and evenly distributed on the platform.
- The platform should be lowered before transporting any loads (**BPST only**).
- The load must be removed and the platform fully lowered before any work is performed on the scissor lift.
- Do not use the scissor lift if any damage or unusual noise is observed.
- Always watch the load carefully when the scissor lift is in operation.
- Ensure that all information/ safety/warning labels remain in place and are legible. See the labels page.
- For battery-powered units, review the Battery Info page.
- Do not use brake fluid or jack oils in the hydraulic system. If oil is needed, use an anti-wear hydraulic oil with a viscosity grade of 150 SUS at 100°F, (ISO 32 cSt @ 40°C), or Dexron transmission fluid.
- Contact the manufacturer for any needed MSDS information.
- ◆ Do not perform any modifications to the scissor lift without the manufacturer's approval. Failure to receive authorization for changes to the equipment could void the warranty.
- ◆ Maintenance and repairs are to be done only by personnel qualified to perform the required work. Consideration will not be given for warranty repair charges without prior written authorization by the manufacturer.

WHEN ORDERING

REPLACEMENT PARTS:

We take pride in using quality parts on the equipment we manufacture. We are not responsible for equipment problems resulting from the use of unapproved replacement parts.

To order replacement or spare parts for this equipment, contact the factory.

In any communication with the factory please be prepared to provide the machine's serial number, which is indicated on the machine dataplate.

RECEIVING INSTRUCTIONS

It is possible that this product could incur damage during transit.

Inspect the unit closely when it arrives. *If you see evidence of damage or rough handling to either the packaging or to the product when it is being unloaded, **immediately** make a note of it on the Bill Of Lading!*

It is important that you remove the product's packaging upon its arrival to ensure that there is no concealed damage or to enable a timely claim with the carrier for freight damage.

Also verify that the product and its specifications are as ordered.
