SAFETY PRECAUTIONS
Read owner's manual completely before operating unit!
• Keep hands, feet and foreign objects out from underneath lift
• Never crawl under lift

RECEIVING INSTRUCTIONS
Every unit is thoroughly tested and inspected prior to shipment. However, it is possible that the unit may incur damage during transit. If damage is noticed when unloading, make a note of it on the BILL OF LADING. Remove all packing and strapping material, then inspect the unit again for damage. IF DAMAGE IS EVIDENT, FILE A CLAIM WITH THE CARRIER IMMEDIATELY! Finally, check the design specifications to ensure they match those as requested (i.e. table size, control type, motor voltage, etc...)

INSTALLATION INSTRUCTIONS
STEP 1 - Unpack accordion skirt kit carefully. Avoid bending the aluminum extrusions and rods.

STEP 2 - Refer to Figure 2 at the right. Thread the rope top of the accordion skirt (1) into the aluminum extrusions (2).

STEP 3 - Place the accordion skirt, with the extrusions installed, over the deck of the scissor table as shown in Figure 1.

STEP 4 - Attach aluminum extrusions to sides of Lift Table. Carefully line up holes in aluminum extrusion with holes in side of Lift Table. Secure extrusion to table using 5/16" self-tapping screws (3).

STEP 5 - Insert stiffener rods into accordion skirt. Locate ¼" holes in ends of BLACK convolutions of accordion skirt. Carefully insert stiffener rod into hole, taking care not to rip or damage the skirt.

WARRANTY
This product is warranted for one year from date of purchase to be free of manufacturing defects in material and workmanship. The manufacturer’s obligation hereunder is limited to repairing such products during the warranty period, provided the product is sent prepaid back to the factory.

This warranty does not cover normal wear of parts or damage resulting from any of the following: negligent use or misuse of the product, use or application contrary to installation instructions, or disassembly, repair or alteration by any person prior to authorization from a factory representative.
INSTALLATION INSTRUCTIONS
FOR LIFT & TILT SCISSOR TABLE

STEP 1 - Unpack accordion skirt kit carefully. Avoid bending the aluminum extrusions and rods.

STEP 2 - Refer to Figure 1 at the right. Install steel angles (1) on sides of deck frame using the predrilled holes (2) and the self tapping screws (3) provided.

STEP 3 - Refer to Figure 2 at the right. Thread the rope top of the accordion skirt (4) into the aluminum extrusions (5) taking care to match lengths. Identify the two longer sides of the accordion skirt by the amount of exposure at each end of the aluminum extrusions.

STEP 4 - Place the accordion skirt with extrusions installed around the unit as shown in Figure 3. The skirt will rest on the previously installed angles.

STEP 5 - Attach aluminum extrusions to sides of Lift Table. Carefully line up holes in aluminum extrusion with holes in side of Lift Table. Secure extrusion to table using 5/16" self-tapping screws.

STEP 6 - Insert stiffener rods into accordion skirt. Locate ¼" holes in ends of BLACK convolutions of accordion skirt. Carefully insert stiffener rod into hole, taking care not to rip or damage the skirt.

INSTALLATION INSTRUCTIONS
FOR GROUND SCISSOR LIFT

STEP 1 - Unpack accordion skirt kit carefully. Avoid bending the aluminum extrusions and rods.

STEP 2 - Refer to Figure 1 at the right. Attach steel angle back support (4) to the Lift Table using the 3/8"-16 x 1 ½" bolts, 3/8" flat washers and 3/8" lock nuts. Make sure steel angle back support is attached to Lift Table before proceeding on to the next step. NOTE: Steel angle back support should be firmly attached - DO NOT OVERTIGHTEN NUTS AND BOLTS.

STEP 3 - Thread the rope top of the accordion skirt (1) into the aluminum extrusions (2) taking care to match lengths.

STEP 4 - With the lift slightly elevated, place the accordion skirt with extrusions installed around the unit as shown in Figure 1.

STEP 5 - Attach aluminum extrusions to sides of Lift Table. Carefully line up holes in aluminum extrusion with holes in side of Lift Table. Secure extrusion to table using 5/16" self-tapping screws (3).

STEP 6 - Insert stiffener rods into accordion skirt. Locate ¼" holes in ends of BLACK convolutions of accordion skirt. Carefully insert stiffener rod into hole, taking care not to rip or damage the skirt.
