LOADING DOCK DOOR HOODS

Installation Steps -

Step 2.

Mark off the position of the canopy above the door opening and clear of any dock seals or dock shelters

Step 1.

Mark the center line of the door opening and the canopy

Step 3.

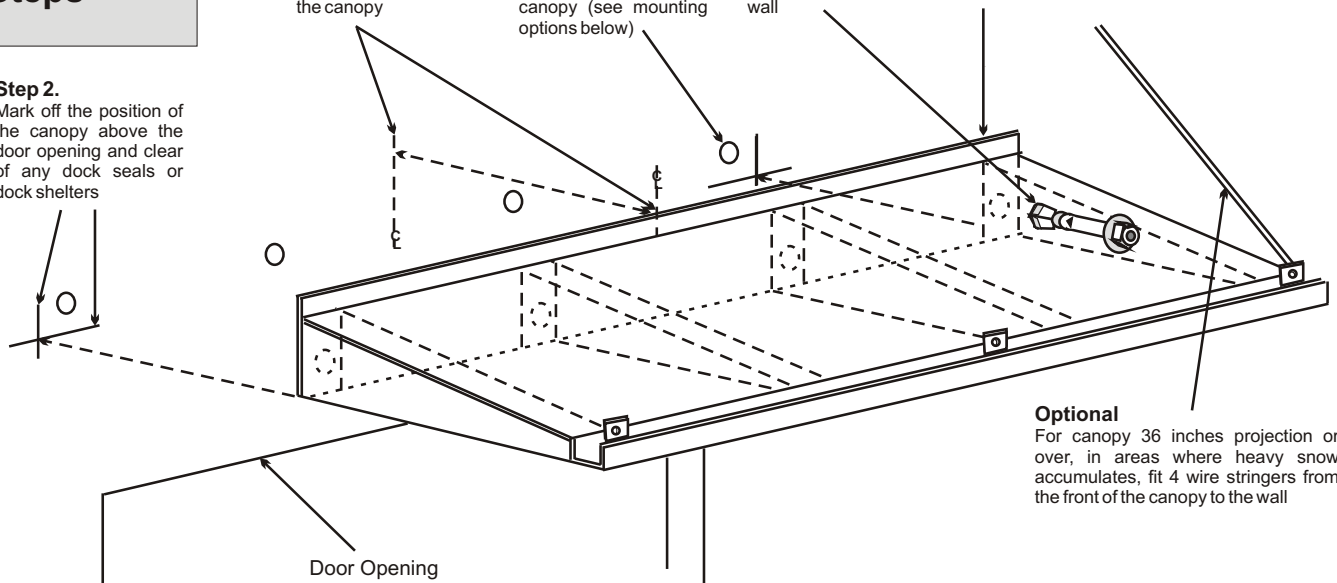

Drill holes in the wall to match the holes in the canopy (see mounting options below)

Step 4.

Position the canopy in place and anchor to the wall

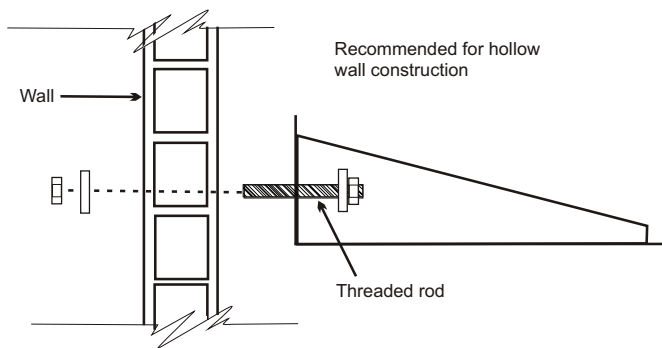

Step 5.

Caulk across the top of the canopy

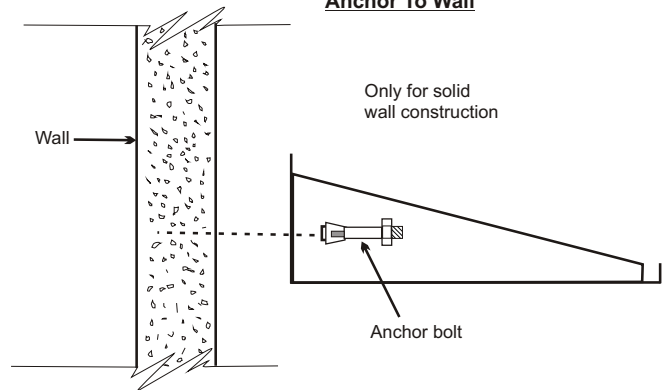

Mounting Options -

Bolt Through Wall

Anchor To Wall
