**FORK & CARRIAGE MOUNTED**

**FORKLIFT CARPET POLE**

Transport rolls or coils with our sturdy Forklift Carpet Pole. Available in either carriage or fork mounted units. 2-3/4” diameter high strength, rotatable, replaceable pole has tapered tip. All rug rams are made of steel construction and painted blue.

**Fork Mounted (Inverted) Rug Rams** feature 7-1/2”W x 2-1/2”H fork pockets on 24” centers. Safety chain is a standard feature.

**Carriage Mounted Rug Rams** are available in class II or III and feature a spring loaded locking pin to secure to the carriage.

**FORK TRUCK**

**FORK CADDY**

Transport forklift forks easily and safely. This caddy also allows the user to easily remove and install forks onto a fork truck. This is usually a dangerous and time consuming process, but now it is a breeze.

After transporting the fork to the forklift, rotate the handle 90° then slide the fork onto the carriage.

The Fork Caddy has easy-grip handles and rolls smoothly on two swivel casters. A fork tine lock secures the fork into the caddy to keep it in place while transporting.

The comfort-grip handle pivots up to 180° to allow for easier mobility. Lightweight and small enough to store and transport easily. Steel construction
