New innovative design allows fork truck driver to invert standing drums to the horizontal racking position. Positive latching system ensures safe handling up to 800 lbs. capacity. Slide the positioner extensions over the vertical drum. With the aid of the Rack Drum Positioner rotate drum to horizontal position. Latching system will engage to allow horizontal positioning of drum. It's now ready to slide into the rack. Fork pockets measure 6-1/2"W x 2-1/2"H usable on 19-1/2" centers.

Rotate drum from vertical to horizontal and horizontal to vertical position.
