

SELF ELEVATING TABLE

AUTOMATICALLY LOWER OR RAISE PLATFORM AS WEIGHT IS ADDED OR REMOVED

Series BETS

SELF-ELEVATING TABLE, series BETS, is designed to automatically raise or lower as materials are removed or added to the platform, keeping material at an ergonomic work height. These tables increase productivity while reducing potentially harmful bending and twisting motions. The counter balance springs can easily be added or removed to adjust weight to height sensitivity. This feature allows the user to conveniently set the table to fit each application.
