Connector

ADA/DDA
Compliant

MODEL: BGD5X125-ADA

Protects cables
and hoses up to
1.325" outside
diameter

Interconnects directly to a
Standard Ramp 5-Channel
Cable Protector!

5-CHANNEL ADA CABLE PROTECTOR has built-in ADA accessibility ramps to provide a safer crossing for vehicle and pedestrian traffic while protecting valuable electrical cables and hose lines. Because the ramps are built-in, there is no need for separate connectors.

Another unique feature of this product is that it interconnects directly to a 5-channel standard ramp cable protector. This modular interlocking design is available in lightweight 18" sections and it includes a recessed carrying handle on the underside of the protector. Ideal for use in amusement parks, entertainment venues, sporting events, and most public, commercial, industrial, construction, and utility applications.
