

Adjustable Standing Desk

**Model
BLAW-3630**

Increase productivity by allowing the body to reposition. The Linear Actuated Adjustable Standing Desk allows for anyone, regardless of their height, to easily use as a workstation or desk. Cantilever design optimizes foot, knee and leg room. The 36" wide x 36" deep platform is large enough for small parts assembly and will hold up to 500 pounds. A hand-held raise and lower control is attached to the understructure of the table; no more misplacing the remote. Durable hardwood platform standard.

Model Number	Platform Size (W x D)	Capacity (pounds)	Service Range
BLAW-3636	36" x 36"	500	30" to 45"

Adjustable Height Desk

Easy to operate with manual handcrank.

Raise material to an ergonomic working height with the Adjustable Height Desk.

Available in two models with hardwood platform sizes of 60" wide x 30" deep or 72" wide x 36" deep with capacities of 750 pounds.

A fold away hand crank is located directly under the platform for easy raising and lowering. User can either stand at their workstation or by lowering the platform, use a chair.

Model Number	Platform Size (W x D)	Capacity (pounds)	Service Range
BEWB-6030	60" x 30"	750	30" to 42"
BEWB-7236	72" x 36"	750	30" to 42"

Also Available in 110/220 Volt AC Powered
