Propane Hoist Cart MODEL BLP-6

Everyone that operates a LP forklift will confirm you always run out of LP Gas at the furthest distance from the LP storage area. The operator must carry the 50 pound LP gas tank to the forklift and lift it about 5 feet. For some there is no problem, for others it's a "back injury," waiting to happen.

INCREASE EFFICIENCY

REDUCE OPERATOR STRESS

HEAVY DUTY CONSTRUCTION

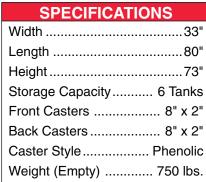

EASY SETUP & OPERATION

DECREASE INJURIES

The leading cause of forklift driver injuries is the back injury caused by lifting LP tanks. (NPGA Report)

Push Handle

The Two Upper Cylinder Saddles Rotate for Easy Access to Lower Cylinders

360 Degree **Swing Boom** Automatic Hydraulic Clamps Cylinder **Holds Up To Six LP Tanks** (2 Vertical & 4 Horizontal) **Double** Acting Hydraulic **Hand Pump** Release Pin (Allows Access to **Bottom Two LP Tanks)** (2) Rigid Casters (2) Swivel Casters with Locking Brakes

Eliminate the difficulty of raising, storing or transporting LP tanks and use just one person. The *Ergonomic LP Tank Truck*, model **BLP-6**, is designed to transport and store up to six full LP tanks, while minimizing back injuries and other stresses on the user.

No lifting is involved when using this ergonomically correct cart; a boom will swing around and with automatic clamps on each end, will pick up the full 50 pound LP tank and swivel around to place the tank on a rack, shelf or the back of a fork truck. A knob on the bottom of the boom controls the speed for lowering the tank. Now one person can easily load or unload a rack or fork truck. This unit can be knocked down by one person for shipping and storage. Units are powder coated for long term wear.

LOAD TANK INTO TRUCK FROM SIDE OR END OF CART

Portable Hoist

SERIES BP-JIB

COUNTERBALANCED / CANTILEVER DESIGN

- Swivel Crane for Side Loading
- Outriggers to Increase Stability
- Double Acting Pump
- Controlled Lowering
- Expedited & Increased Cable Down Reach
- Provided with or without Counterbalancing Ballast
- When Ordering without Ballast, Empty Sand Bags are Provided (In
