CHECKERS® GENERAL PURPOSE RC SERIES WHEEL CHOCKS are composed of durable rubber that makes them strong and safe in industrial applications. The RC models are resistant to damage from UV, moisture, salt, and oils. Their traction design grips the tire and road and will not cause tire or pavement damage. The chock design also allows either side to be positioned against tire. This series of chocks is built to suit a variety of applications in the construction, utility, and other commercial industries.

**RC450 SERIES - standard of the utility industry**

- Durable rubber construction
- Resistant to the elements
- Steel loop carrying handle
- Fits most chock storage compartments
- Allows either side to be positioned against the tire

**RC815 SERIES - for “Over The Road” Trucks and Trailers and Loading Dock Facilities**

- Allows either side to be positioned against the tire
- Ideal for keeping truck trailers in place during loading or unloading
- Durable rubber construction
- Ribbed pyramid design
- Resistant to the elements
- Eyebolt for ropes or chains

WHEEL CHOCK ACCESSORIES

**DOCK CHAINS with hardware**

**ECONOMY DOCK CHAIN WITH HARDWARE**

- ECONOMY DOCK CHAIN
- Rated at 225 lb. (116 kg) working load limit.

**HEAVY DUTY DOCK CHAIN WITH HARDWARE**

- HEAVY DUTY DOCK CHAIN
- Rated at 800 lb. (363 kg) working load limit.

**SAFETY CABLE LOOP HANDLE with hardware**

- SAFETY CABLE LOOP HANDLE
- Contains high-density rubber for resistance to the elements.

**SAFETY SIGNS for compliance with chocking regulations**

- SAFETY SIGNS
- For compliance with chocking regulations.

---

**RC5500 SERIES - triangular design used by aircraft worldwide**

- High-density rubber
- Horizontal traction ribs
- Resistant to the elements
- Allows either side to be positioned against the tire
- Replaceable 24 in. (61.0 cm) rope lanyard
- Sold as singles with rope or roped together as pairs
